Expression	Expected value	Calculated value	Reason for calculated value
min(25,4)	4	4	The expression returns the least number between the two numbers
max(25,4)	25	25	The expression returns the largest number between the two numbers
min(25, max(27,4))	25	25	The expression returns the least number between the two numbers i.e. 25 and 27
abs(25)	25	25	The expression returns the absolute value 25
abs(-25)	25	25	The expression returns the absolute value (-25)
round(25.6)	?	26	The expression round the number to the nearest integer
round(-25.6)	?	-26	The expression round the number to the nearest integer
round(25.64,0)	?	26.0	The expression round the number to the nearest integer (to no decimal place due to the zero)
round(25.64,1)	25.6	25.6	The expression rounds the number i.e. 25.64 to one decimal place
round(25.64,2)	25.64	25.64	The expression rounds the number i.e. 25.64 to two decimal place
len('Truth')	5	5	Len function returns the number characters in the string
len('Truth' + 'is' + 'best')	11	11	The expression returns the sum of the number of characters in the individual strings.
